SUMMARY

I'm a junior software engineer with experience in full-stack development and technologies related to JavaScript (ES6+) environment. Proficient in building robust applications, including optimized user interfaces, reliable back-end systems, and RESTful API development and integration. Looking for a **Software Engineer** role within the web domain to contribute to impactful projects and foster professional growth within a collaborative team.

EDUCATION

University of Haripur

BSCS (CGPA: 3.62 / 4.00)

Sep 2020 – Jul 2024

Haripur, K.P.K

Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, DBMS, Data Structures.

TECHNICAL SKILLS

Programming Languages: C++, Javascript, Typescript

Frontend Development: HTML, CSS, Sass, React.js, Next.js, TailwindCSS, Shadcn UI, Redux-toolkit

Backend Development: Node.js, Express.js, RESTful APIs development, JWT tokenization, MongoDB, MySQL.

Miscellaneous: Problem-solving, Adaptability, Quick learner, attention to detail, clean code architecture.

Tools: Git, Github, Jira, Click-up, Postman, Swagger

PROFESSIONAL EXPERIENCE

mimAR Studios, NSTP, NUST, Islamabad: Junior Software Engineer

Jan 2025 – Present

- Contributing to refactoring and migrating backend services from Firebase to a Node.js environment to enhance system modularity and scalability.
- Building a web-based 3D modeling product, offering solutions to generate images for 3D modeling and rendering services.

Sparkleo Technologies, NSTP, NUST, Islamabad: Associate Software Engineer - Intern

Nov 2024 – Jan 2025

- As an intern, I assisted the web team working on the front end, building, and debugging user interfaces.
- Through my contributions and assistance, I've increased the development period by up to 30 percent, resulting in rapidly growing sprint deliverables.

AlrightTech Pvt Ltd, Islamabad, Pakistan: Associate Software Engineer - Intern

Oct 2024 – Nov 2024

- Completed a 6-week internship as an ASE and contributed valuably to the MERN Stack projects.
- Worked on dashboard for AI-based video generation app, integrating RESTful APIs, achieving faster responses.
- Implemented performance optimization techniques in web apps, overall reducing the latency time for processing.

PERSONAL PROJECTS

Mastering RESTful APIs | Nodejs, Expressjs, Typescript | [Link](#)

- Built a RESTful API using Node.js, Express, and TypeScript, implementing CRUD operations efficiently.
- Used TypeScript for better type inference to reduce errors in the run-time environment.

Flash Cards Web Application | React.js, Express.js, Node.js, MongoDB | [Link](#)

- Developed a full-stack web app for creating, storing, and retrieving flashcards using MERN technologies.
- Added features like public and private content visibility and controlled mutual sharing.
- Integrated the **Google Gemini API** to enable text generation, helping users find specific information.

Blogging Web App | React.js, Express.js, Node.js, MongoDB, Tailwind CSS | [Link](#)

- Developed a platform for reading and creating blog posts with a mobile-friendly UI.
- Built and optimized RESTful APIs with Node.js and Express.

ACTIVITIES

- Cracked the **'Centralized test'** for IT Graduates - [Link](#)
- Postman** API Fundamentals Student Expert - [Link](#)
- Interactivity With **JavaScript (ES6)** - [Link](#)
- HacktoberFest 2024** Open Source Contributor - [Link](#)
- ReactJS using **TypeScript** - [Link](#)
- Advanced Styling with Responsive Designs - [Link](#)
